

SUMMER 2024 GRADUATE PROGRAMS ESTIMATED COST OF ATTENDANCE

Welcome to summer at Samford!

The following pages have been created to give you a better understanding of your summer costs. The Cost of Attendance is used to determine eligibility for federal student aid. Amounts reflect the estimated costs for a typical student in your program of study. To view the cost of attendance budget that has been used to determine your aid eligibility, visit your account in the [Samford Portal](#).

Please understand that the cost of attendance includes both direct and indirect costs associated with your program at Samford University. Indirect costs are estimates of expenses that you might incur while attending during a particular term. Direct costs (tuition and fees) are based on typical enrollment in your program of study. The total cost of attendance may not be an accurate reflection of the true cost of your enrollment. To view your specific costs, please visit your financial account in the [Financial Portal](#).

Last, please note that for May term as well as both summer terms, your costs are directly affected by the number of hours that you take. Graduate students must take a minimum of **three** credit hours to be considered half-time and to be eligible for federal aid.

As always, if you have questions about your financial aid, please contact your advisor in the Samford One Stop.
